

Iridium Satellite LLC (country codes +881 6 and +881 7)

Communication of 17.VII.2020:

Iridium Satellite LLC announces the following information about the Iridium numbering plan and dialling procedure:

A 13th digit has been added to the dialling procedures for numbers in range +8816-xxx-xxxxx to support expanded Iridium services and subscriber growth. Iridium's MSISDNs will now be either 12 digits or 13 digits long. These calls should therefore be considered valid.

Service providers are kindly requested to program their switches to enable access to these numbering ranges.

For any questions, please contact:

Mr. Patrick Livecchi
Sr. PSTN Engineer
Iridium Satellite LLC
8440 South River Parkway
TEMPE, AZ 85284
United States

Communication of 17.XII.2015:

Iridium Satellite LLC has interconnection agreements with the following carriers listed below. At the present time, these are the only valid directly interconnected IXC carriers for terminating or originating traffic with the Iridium Network. Their local representative should be contacted for pricing and routing information:

AT&T (U.S.): www.att.com/worldwide/
Telstra International (AUS): www.telstrainternational.asia/ (previously known as Reach)

Iridium Satellite LLC requests that access be ensured to the Iridium network using country codes +881 6 and +881 7, and has set up a recorded announcement in its switch that will enable customers to validate their routing.

To access this service, please dial: +881 6 311 10006 and
+881 7 311 10007

Calls placed to these numbers will terminate at *Iridium Satellite LLC* switch with the following recorded announcement: "You have reached the Iridium Satellite Tempe Gateway, your access to the Iridium global network. Welcome."

The contact person below would appreciate an e-mail message or fax from you with the contact information for both the person responsible for your main translations and the main technical point of contact for your company. This will allow *Iridium Satellite LLC* to work together with customers to solve any routing problems and other issues that might arise.
